High-Resolution Imaging Workshop

The New England Society for Microscopy is pleased to announce that it will sponsor a workshop on “Imaging with High Resolution in the Transmission Electron Microscope” on Thursday May 3rd, 2007. The workshop will be held at the Marine Biological Laboratory at Woods Hole, MA, and will be followed on Friday and Saturday, May 4th and 5th by the annual NESM Spring Symposium.

Who should attend:

- Microscopists who are dissatisfied with their present micrographs
 - Students needing to learn skills for their research
 - Practical microscopists desiring to learn some theoretical background to the subject
 - etc., etc.

The workshop will be presented by Dr. Douglas A. Blom, Staff Scientist in the Advanced Microscopy Laboratory at Oak Ridge National Laboratory. Dr. Blom is a member of the team operating the JEOL 2200FS aberration corrected (S)TEM, including remote access capability. This facility will be used remotely to illustrate the presentation.

More Information

More information, including registration and lodging details, will be available around February 1st, 2007. Check the NESM Web site at <http://nesm.cims.harvard.edu>
